TUESDAY, DECEMBER 14, 1909.

Isn't it about time for someone to make affidavit that Dr. Cook didn't go to the Arctic region at all? Some of the other charges against him appear almost as ridiculous. Many people refuse to lose confidence in the explorer unless the University of Copenhagen, which believes in being fair, turns him down.

Eastern coal now supplies our naval depots in California, Washington and Honolulu, and were a war with any power to be fought in Pacific waters, one of the gravest problems would be prompt and adequate supply of fuel. It is not surprising, therefore, that the navy department is lined up with other forces, insisting that the government go slow in ceasing full control of Alaskan coal lands, inasmuch as there are said to be areas of coal there, in the Controller bay region, which have large veins, but sample low in ash and sulphur and aggregate more thermal units per pound than the best bituminous fields of the east can produce. Naval economy and military efficiency of the Pacific fleet, if this be true, rest with control of these deposits by the nation.

## IMMIGRATION EVILS.

The report of the Immigration commission on the "white slave traffic," revealing as it does, does not present an impossible problem. The commission reports that but a small percentage of innocent women are deceived into this country for immoral purposes. Thousands are said to be brought in annually who have previously become convinced in immorality. Their trade is no more secret in the cities of other nations than in this country. Like many other undesirable classes of immigrants, these women embark for this country because there is no adequate scheme of inspection at foreign ports. Inspection on this side cannot be thorough or adequate. The best preventive of these importations is to establish a competent inspection system in foreign ports, to require would-be immigrants to secure proper credentials before embarking and in ample time to permit of verification, as to physical condition, character and circumstances. Supplement this with adequate state laws and local ordinances.

## Poor Digestion?

This is one of the first signs of stomach weakness. Distress after eating, sour eructations, sick headache, bilious conditions are all indicative that it is the stomach that needs assistance. Help it to regain health and strength by taking

## BEECHAM'S PILLS

for they are a stomach remedy that never disappoints. They act quickly and gently upon the digestive organs, sweeten the contents of the stomach, carry off the disturbing elements, and establish healthy conditions of the liver and bile.

The wonderful tonic and strengthening effects from Beecham's Pills, make them a safe remedy—they

## Help Weak Stomachs

properly enforced. Crush out the business, which if it did not secure its supply from foreign countries would demoralize our own society to a still greater extent, and the problem of the white slave traffic becomes simple. It is the duty of the federal government to make and enforce preventive regulations of immigration, not more to keep out unfit women than to keep out unfit men. An adequate system of protection would prevent either evil. But it is the duty of the states and the cities and towns to crush out the immorality which sustains this alleged traffic. Given adequate local and state law and its enforcement and there would be no profit in this traffic. Too much emphasis is being laid on the duty of the federal governments and on public sentiment in the cities of the United States.

## ANTI-TUBERCULOSIS STAMPS.

Two anti-tuberculosis stamps, which will be placed on sale in the express offices and postoffice on Thursday by the Houghton County Anti-Tuberculosis society, and which already are being sold in some of the stores, afford one of the means taken to promote the anti-tuberculosis cause. The sale is aimed to provide funds to carry farther the work now being undertaken.

The fight against tuberculosis is one of prevention even more than of cure. Unfortunately science has so far been baffled by the disease after it has gained good headway. It is known, however, that it comes from breathing impure air, that careful attention to physical condition can largely prevent it and that through the enlightened understanding of the world it might perhaps be stamped out. It is a matter for society, rather than for the individual alone, however. The lower classes, among whom especially it flourishes, must be taught the value of fresh air. It is not sufficient to give proper treatment to those afflicted with the disease, important as this is, but the campaign must be carried even to those who are in no immediate danger from it.

To do all this, of course, funds are necessary. Contributions to a cause of this character are especially fitting at the holiday season and the Christmas stamps, for the benefit of the local fight against tuberculosis principally, are sold to give everyone an opportunity to make a humble contribution to the cause. They have no financial value as stamps; they do not carry a letter through the mails, but they do carry a message of sympathy for a good cause and afford a pleasing way of making a contribution slight as it is and little as it is felt by the giver, to that cause.

## "THIS IS MY 58TH BIRTHDAY."

Hastings H. Hart, head of the children's department of the Russell Sage Foundation, was born in Brookfield, Ohio, December 14, 1851, and was educated at Oberlin College and Andover Theological Seminary. For two years he was a clerk in the United States Indian service and for three years was pastor of a Congregational church at Worthingham, Minn. From 1893 to 1898 he was secretary of the Minnesota board of charities and corrections. Subsequently he held a similar position with the Illinois Children's Home and Aid Society, which he resigned last May to enter upon his duties in connection with the Russell Sage Foundation, which has its headquarters in New York. Mr. Hart has had much to do with the framing of child legislation in Minnesota, Illinois and other States.

## "THIS DATE IN HISTORY."

1739—Pierre Samuel Dupont, founder of the great powder works of Delaware, born in Paris, France. Died in Wilmington, Del., Aug. 6, 1817.  
1780—Wedding of Alexander Hamilton and Miss Elizabeth Schuyler at Albany, N. Y.  
1782—Gen. Anthony Wayne took possession of Charleston, S. C., following the evacuation of the city by the British.  
1799—George Washington, first president of the U. S., died at Mt. Vernon, Va. Born in Westmoreland County, Va., Feb. 22, 1732.  
1811—Noah Porter, 11th president of Yale College, born in Farmington, Conn. Died March 4, 1892.  
1819—Alabama admitted to the union.  
1865—Charles J. Jenkins inaugurated governor of Georgia.  
1892—Sir Adam G. Archibald of Nova Scotia, one of the "Fathers of the Dominion Confederation," died. Born May 18, 1814.  
1894—New Canadian ministry formed by Mr. Mackenzie Bowell.  
1901—Signor Marconi announced the receipt at St. John's, Newfoundland, of wireless signals from Cornwall, 1,700 miles distant.

## POLITICS AND POLITICIANS.

Former Governor Guild of Massachusetts has accepted an invitation to speak at the Griddle club banquet at Totino, Mich., next month.  
James B. Connolly, writer of new stories and friend of Ex-President Roosevelt, will be a candidate for Congress in the Tenth Massachusetts district.  
Announcement is made that ex-Governor Myron T. Merrick of Ohio, will be a candidate against Senator Dick for the Republican nomination for United States senator.  
Gen. Charles H. Grosvenor thinks Judge Robert W. Taylor of Cleveland, is the strongest possible candidate for the republican gubernatorial nomination in Ohio next year.  
Elmer Dover, who held the position of secretary of the republican national committee for a number of years, has decided to abandon politics and enter the business field.  
The first annual convention of the Lincoln Voters' League will be held at Kalamazoo, Mich., May 6, 1910. The date is the semi-centennial of the nomination of Lincoln for the presidency

## CHRISTMAS REFERENCE BOOKS

ESTABLISHED 1872. DETROIT, MICH.

at Chicago, May 16, 1860.

The Secretary of State of Iowa announces that only two parties, the republicans and democrats, have the right to hold a primary election in that state next June. The prohibitionists and socialists fell below the 2 per cent mark in the last election.

Frank R. Kellogg, "trust buster" of the Roosevelt administration and chief counsel for the Government in the Standard Oil suit, is expected to become a candidate for the United States senate against Senator Moses E. Chapp of Minnesota, whose term will expire in 1911.

Andrew Miller, attorney general of North Dakota, is expected to become a candidate for United States senator on the "insurgent" Republican ticket. Mr. Miller has been a resident of North Dakota only five years, but in that time has become one of the recognized leaders of the republican party in that state.

John H. Hinemon, who was a candidate for the democratic nomination for governor of Arkansas in the last campaign, is expected again to become a candidate in opposition to Governor Donaghey. Mr. Hinemon is an ardent advocate of statutory State-wide prohibition and will make that the principal plank of his platform.

Politics in New Jersey is lively in anticipation of the primary for the choice of a successor to United States Senator John Kean. Among those whose names are already mentioned in connection with the senatorship are ex-Governor Stokes, ex-Governor Murphy, State Assessor David Baird, former United States Attorney General John W. Griggs and possibly

Many persons find themselves affected with a persistent cough after an attack of influenza. As this cough can be promptly cured by the use of Chamberlain's Cough Remedy, it should not be allowed to run on until it becomes troublesome. Sold by Engle drug store, Calumet, and Laurium pharmacy, Laurium.

Governor Fort, in addition to Senator Kean himself.

Col. Re T. Pryor, who is expected to become a candidate for the governorship of Texas at the next election, has long been one of the prominent men of the Lone Star State. He started life as a cowboy in the Federal army and was less than 12 years of age when a horse was killed under him at the battle of Murrellsboro. He is a native of Tampa, Fla., but after the war removed to Texas, where he has accumulated a large fortune in the cattle business. Last summer Colonel Pryor was elected president of the Trans-Mississippi Commercial Congress.

## GENERAL EDUCATIONAL NEWS.

Columbia has 12,739 alumni.  
Berea College, Ky., enrolls 1,221 students.  
University of Illinois dedicates a new \$250,000 physical laboratory.  
Over 100 normal schools in this country are giving instruction in agriculture.

Wisconsin, Maryland, Michigan, and Mississippi, have county agricultural schools.  
Nearly 400 high schools in the United States are giving instruction in agriculture.

Department of Superintendence, N. E. A., meets in Indianapolis, March 1-3, 1910, Hotel Claypool headquarters; one and one-third fare are the railroad rates.

Columbia has an enrollment of 4,759 students: Minnesota, 4,547; Harvard, 4,267; Illinois, 4,390; Pennsylvania, 4,285; Yale, 3,439; Michigan, 5,226. The only state not represented at the University of Michigan is Delaware.

Dr. Benjamin Ide Wheeler, Brown '75, president of the University of California, will be Theodore Roosevelt professor at the University of Berlin this year. This professorship is filled by the trustees of Columbia University.

Dr. William T. Harris, a veteran in the service of education in this country, and for many years Commissioner of Education of the United States, recently passed away at Providence, Rhode Island. He had just completed a new edition of Webster's International Dictionary, of which he was editor-in-chief.

## HOW TO STOP MOTOR CAR.

It Isn't Easy to Do It in a Big Hurry Without Skidding.

"Never do anything suddenly with an automobile," writes an experienced driver in "Outing." "Only so can wear and tear on the car be minimized, not to mention accidents. Suppose you are confronted with the necessity for a sudden stop. Your amateur impulse will be to jam down the clutch pedal, grip the wheels into cessation of their revolution.

"The motor, thus relieved of its load, will begin to race, the flywheel will spin around with increasing velocity, and you are lucky if, especially on wet asphalt, your car does not skid around like a top, hit the curb and turn turtle with you underneath.

The wear of this sort of stop on the tires should be a sufficient consideration for you to refrain from cultivating it.

"If, on the other hand, you first close the throttle, then throw out the clutch and apply the brake just hard enough to allow the wheels barely to revolve your car will come to a safer and speedier stop without strain. The motions to accomplish this must of course be practically simultaneous, but they are no more difficult than those required for the wrong sort of stop. Once at rest, you open the throttle instantly and advance the spark if necessary to start the engine. The clutch can then be thrown in gradually when you wish to advance."

## UPPER PENINSULA

## Escanaba Sailor Saved—

Word has been received that Horace Atkins of Escanaba is not among the dead as a result of the sinking of the steamer W. C. Richardson, of whose crew he was a member. He was one of the five men who were saved. Atkins was employed as wheelman aboard the Richardson and was making his last trip of the season.

## Judgment is Reversed—

The judgment of \$5,000 which was awarded Mrs. Nellie Cleary of Menominee, by a circuit court jury for the accidental death of her husband on the St. Paul road has been reversed by the supreme court of Wisconsin and the case will be tried again. The accident in which Engineer Cleary lost his life occurred shortly before Christmas two years ago. Cleary struck to his post when his engine collided with another switch engine and was killed. His fireman jumped from the cab and escaped unhurt.

## Engagements Announced—

Mr. and Mrs. John H. McLean of Duluth, have announced the engagement of their daughter, Miss Ethel to Maurice E. Scroggins of that city. Mr. and Mrs. McLean and Miss Ethel were residents of Iron Mountain for many years. Mr. McLean is a leading official of the Oliver Iron Mining company. Ed Davis of Munising has announced the engagement of his daughter, Miss Maena Llewellyn, a resident of Duluth, to William Henry Harvey of Evelyn, Minn. Mr. Harvey is an old Iron Mountain boy, removing to the Mesabi range some fifteen years ago. Since leaving Upper Michigan he has held the position of superintendent of several mines and now holds the office of inspector of mines for the Minnesota iron ranges.

## Saloonkeeper Convicted—

After vain expressions of regret and expostulations against the hard heartedness of the world in general, Laurium, a saloonkeeper of Menominee was ordered to pay a fine of \$20 and costs in the case brought against him by the city upon a charge of allowing women to frequent his place of business on Grand avenue. With the costs,

(Incorporated)

the fine amounted to \$56.99. It was the second trial of the case, the first jury having disagreed. Had Lemmy been new to the police books, the officials state that they would have treated him more leniently, but as he has violated the law four times within three years, they believe it time to give him the limit provided by law. Lemmy was charged with having allowed Vivian Kane to frequent the rear of his saloon, which at one time had been used for wine rooms. He contended that he knew nothing of her presence there, and was just ejecting her when the police entered. The girl, however, testified that Lemmy had telephoned her to go to the saloon and meet a man who wanted to see her. It was while talking to this man that Captain Dan Flynn and Officer Rasmussen entered and arrested Lemmy. The man in question, who is a tugboat captain, could not be located. This was Lemmy's second conviction within a month. The last time was for a violation of the closing ordinance, when he was fined \$75 and costs by Judge Cooper of the circuit court.

vertical for sale are for the past three years and amount to a little over \$10,000.

## Sault Ste. Marie People Hit—

A meeting of the creditors of A. D. Suprenaw & Co., a lumbering concern which recently went bankrupt on a timber contract with the Cameron Lumber company of Central Lake, was held at the Sault last week. The meeting brought out the fact that the company had liabilities amounting to about \$11,000, with assets of about \$10,000. As practically all the assets are encumbered there will be little or nothing left for the unsecured creditors. There are about thirty in all, the majority of whom are Sault Ste. Marie people who are hit to the extent of about \$2,300. These have having the largest claims are Gowan & Pickford, Conway & Hall, Charles Beckingham, Jos. & W. T. McLachlan and Peggard & McKinley.
